[Hiring Manager Name]
[Team], [Company]

Dear [Name],

I am applying for the [Role] position at [Company]. I build [kind of software], and most recently I [one sentence on your current work].

At [Previous employer], I [specific change you made] so that [who benefited] could [what they could do]. The hard part was [constraint]; I handled it by [decision] and checked it with [test or measurement].

[Company]'s work on [product or problem from the job description] matches that experience. I would start by [specific contribution you could make in the first months], and I am comfortable with [two or three requirements from the posting you meet].

My resume is attached. I am available for a call at [times], and I can share [code, writing, or references] on request.

Sincerely,

Your Name
